

# AMENDMENT

Appln No. 09/734,684

## APPENDIX

### VERSION WITH MARKINGS TO SHOW CHANGES MADE

#### IN THE CLAIMS:

**The claims are amended as follows:**

Claim 1 (Amended) A stator for a dynamo-electric machine [of which] of the type having a rotor [is] disposed inside the stator, wherein a core of said stator [core] comprises: an [inside] inner ring core formed [annually by laminating] of a lamination of plate-type magnetic members, and having [in which] a plurality of teeth [are] provided on [one] an inner side [of a yoke portion] thereof, [disposing] coils disposed in slots [each] formed between said teeth, [bending the magnetic members so that the coils are located inside, and bringing two] end faces of said magnetic members [into contact with] contacting each other; and an [outside] outer ring core [; being made] formed of magnetic members and [formed] cylindrical in shape, [which is] fitted on [outside of said inside ring and holds] an outer circumferential surface of said inner ring core and holding said [inside] inner ring core.
